

DIGGING BUCKET

With its advanced design facilitating digging, the GRYB excavator digging bucket will exceed your expectations. Available in multiple widths and capacities for different types of jobs and excavators. The design of GRYB's excavator digging bucket optimizes the breakout power of the excavator. By having tip radius lengths similar to the manufacturers, our excavator digging buckets significantly eliminate the loss of power compared to a non-standard bucket. The double radius in the bottom of the excavator digging bucket ensures smooth digging to reduce premature bucket wear.

Made to Handle Various Small Materials in the Construction Industry.

Optimized Angle Filling and Dumping.

Reversible Attachment Available.

Side Cutter Available Bolted or Welded.

BUCKET OPTIONS COMPARISON CHART

| | DIGGING BUCKET HD | SUPER HEAVY DUTY BUCKET SHD | EXTREME DUTY BUCKET XHD |
|--|----------------------|--------------------------------|----------------------------|
| - Under and side plates in High Resistance Steel | | | |
| 1 Wear Bars | | | Thicker |
| 2 Tooth size | Standard | Standard | Heavy Duty |
| 3 Side Cutters | Welded/Bolt-on | Welded/Bolt-on | Welded/Bolt-on |
| 4 Welded Heels | N/A | Optional | Optional |
| 5 Edge Protection * | N/A | Optional | Optional |
| 6 Outside Reinforcements | N/A | N/A | Optional |
| 7 Inside Reinforcements | N/A | N/A | Optional |
| 8 Inner Bottom Lining | N/A | N/A | Optional |
