

LIGHT MATERIAL BUCKET

Designed to offer optimum visibility and maximum fill capacity, the GRYB light material bucket is the perfect tool for snow removal and work involving light materials. Available in a range of sizes and capacities, our bucket fits a variety of wheel loaders, allowing you to choose the one that perfectly matches your needs. With its increased loading capacity, our bucket allows you to maximize your productivity on the job site, by reducing the number of trips required to transport your materials.

For simplified maintenance and increased durability, our lightweight material bucket is equipped with an interchangeable bolt-on blade and bolt-on heels, allowing you to easily replace worn parts and extend the life of your equipment.

Increased Loading Capacity.

Protective Lining For a Quick Hitch.

Interchangeable Bolt-on Blade Included.

Bolt-on Heels Included.
